Subject: **P4P Corrective Resubmission Guidelines - UPDATE**

Important Announcements!!!

In an effort to streamline the P4P corrections process, IEHP has updated the P4P corrective submission process. All P4P corrections for PM160s, Pregnancy Notification Outcomes (PNOs), Asthma, and Diabetes **must be** mailed to one address only. As previously communicated, beginning January 1, 2008, IEHP will no longer accept or reimburse initial paper submissions made via fax or mail except corrective resubmissions only. Helpful tips when submitting your corrections:

PM160s, Pregnancy Notification Outcome (PNO), Asthma Progress Notes, and Diabetes

1. The word "**CORRECTION**" must be written under the Comment Section of your PM160s.
2. Corrections to your PM160s, PNO, Asthma, and Diabetes must be submitted to IEHP **within 60 days** of your initial electronic submission to IEHP.
3. Any corrections received after 60 days from the date of submission are not eligible for incentive reimbursement.
4. Send all P4P corrections (excluding Pap & Chlamydia) to the following address:

IEHP – Healthcare Analytics Department
PO Box 19026
San Bernardino, CA 92423-9026

If you have any questions about the P4P corrections process, please contact your IEHP Provider Team at (909) 890-2054.
