Medication Therapy Management Now Offered

Inland Empire Health Plan (IEHP) offers Medication Therapy Management (MTM) to qualified Members who have certain health conditions. MTM is a term used to describe a broad range of services offered by Pharmacists—medicine experts on our health care team.

Our IEHP Clinical Pharmacy Team reviews the Member's medicines, making sure they're taking the right ones for their health conditions. This means that MTM helps IEHP Members use prescription medicines in a proper and safe way. Members can participate if they meet the eligibility criteria based on the number of disease states and medications used.

IEHP's MTM services include these core elements:

- Medication therapy reviews
- Medication education
- Disease management

IEHP Medicare MTM Program

This is a free program under Medicare Part D offered to qualified IEHP Members with Medi-Cal coverage and eligible Members of the IEHP DualChoice Cal MediConnect Plan (Medicare-Medicaid Plan). To qualify, the Members must have multiple medical conditions, take many prescription drugs, and have high drug costs.

MTM includes a yearly comprehensive medication review (CMR) and regular targeted medication review (TMR) services throughout the year.

Questions? Visit our Medication Therapy Management page in the Provider section of www.IEHP.org. Or feel free to call us at **(909) 890-2049**, Monday-Friday, 8am-5pm.

IEHP DualChoice Cal MediConnect Plan (Medicare-Medicaid Plan) is a Health Plan that contracts with both Medicare and Medi-Cal to provide benefits of both programs to enrollees.
