Subject: **Partner with Pair Team to Improve Childhood Immunization Rates**

Support a Joint Effort with IEHP and Molina Healthcare

We are pleased to announce that IEHP is partnering with Molina Healthcare to focus on improving Childhood Immunizations for Members from 0 to 2 years of age.

IEHP and Molina will be working alongside **Pair Team**, a third-party vendor, that will assist Providers with the Childhood Immunization goals.

Pair Team provides an operational platform to support clinic staff and align daily clinical operations with value-based care and total cost management to your Practice. This platform is driven by automation and supported by their own trained care team.

We encourage our Providers to consider partnering with Pair Team to improve Member engagement and close care gaps. Any costs for the services offered by Pair Team will be negotiated directly by Providers with Pair Team.

During the week of August 9, 2021, PSRs from IEHP and/or Molina will be reaching out to you to discuss this opportunity and answer any questions you may have. Should you opt to work with Pair Team in this joint effort, Pair Team will be contacting your office directly.

If you have any questions regarding this program prior to August 9th, please contact Provider Relations Team at (909) 890-2054 or email at Providerservices@iehp.org.

As a reminder, all communications sent by IEHP can also be found on our Provider portal at: www.iehp.org > Providers > Plan Updates > Correspondences.
