

Comprehensive Practice Optimization Series

www.rcmadocs.org/practiceoptimization

Healthcare delivery is complex and small to mid-size primary care and specialty practices are challenged

Our Practice Optimization Series is a 6-part program based on The Patient Who Swallowed A Mouse parable. Each Workbook serves as the foundation for dynamic interactive learning sessions that focus on specific practice needs. **Registration fee includes The Patient Who Swallowed A Mouse book and the 6 Workbooks.**

This unique program includes surveys, challenges and thought-provoking exercises designed to heighten awareness and provide foundational evidence and insights for practice transformation.

This Practice Optimization Series can be coupled with a customized RCMA/IEFMC individualized practice support program. This unique strategy provides boots on the ground in-office support that builds upon the Workbook series and integrates RCMA/IEFMC business partners in an affordable manner for enabling practices in need to jump-start their journey to success.

Topics Include:

- **Session I** Foundational Practice Assessment: Understanding Your Present State
- **Session II** Practice Operational Insights
- **Session III The Right Staff in the Right Position: Team-Based Care**
- **Session IV** Preventing Burnout & Fostering a Healthy Work/Lifestyle Balance
- **Session V Developing Your Practice's True North**
- **Session VI** Successfully Rebuilding Your Practice
