

YOU'RE INVITED

# AI FIRST ANNUAL HEALTHCARE CONFERENCE

an experiential deep dive into the latest technological transformation for physicians, healthcare executives, innovators and health plans.

## The future of healthcare is upon us. Are you ready?

Spend an extraordinary day with us learning about and playing with the very latest Artificial Intelligence (AI) technologies. These are the innovations that are rapidly transforming today's healthcare delivery system and changing the face of medical practices nationwide.

AI is now drastically cutting documentation time and reducing provider burnout, while boosting quality performance, patient outcomes and population health care delivery efficiencies.

**Friday, April 26, 2024**  
**8:30am to 3:30pm**

**The Atrium at IEHP**  
10801 Sixth Street

## Keynote Speaker

### Reid Conant, MD, FACEP

*Chief Medical Information Officer at Microsoft Nuance*

Dr. Reid Conant is a chief medical information officer for Nuance's Healthcare division. Prior to Nuance, Dr. Conant served as the president and founder of Conant and Associates, Inc. which was acquired by Nuance in 2014. For more than eight years, CAI assisted well over 200 organizations, and trained over 10,000 providers on physician documentation solutions.

*Additional Speakers to be announced*
